The American Ship *Star*, from London the 12th of June, anchored in the Roads, on Thursday last. She touched no where, and did not fall in with a single Vessel on her passage.

The American Vessel *Star*, has brought down our intelligence from England to the 11th of June, which is little more than a week later, than what we have received via Calcutta. The Captain of this Vessel, obligingly favored us with the loan of the London Courier, from the 2d to the 9th of June inclusive; and as no Packet of any kind has been conveyed by her, we esteem ourselves peculiarly fortunate. We have prepared copious extracts from them, but we scarcely ever recollect to have perused the London Journals of a week, so destitute of every description of interesting intelligence.

The proceedings in Parliament, which for the last six months, have continually arrested our attention, have now commenced to dwindle, as is customary at the approach of the close of the Session, into insignificance. All the great questions of national Policy have been decided, and Parliament was expected to adjourn about the end of June. After a hasty perusal of these Papers, we cannot discover any occurrence on which it is necessary to comment at length. It is extremely gratifying to us to be enabled to state, that the disturbances, which prevailed in some of the Eastern Counties of England, at the departnre of our last accounts, have been entirely suppressed, and not a complaint or symptom of discontent, is now to be discovered. A Special Court had assembled at Ely, to try some ofthe ringleaders of the late riots. Tranquillity and confidence was completely restored in the distant counties.

We regret to find that her Royal Highness the Princess CHARLOTTE OF WALES, was greatly indisposed, when the American left England. The Princess was taken ill on the 5th of June.

The 20th of June was fixed upon for the marriage of his Highness the Duke of GLOUCESTER, with the Princess MARY. We also understand, that His Royal Highness the Duke of CAMBRIDGE is shortly to receive the hand of the Princess SOPHIA of GLOUCESTER.

On the 4th of June, Mr. CANNING, and Lord BINNING, were gazetted as Commissioners for the affairs of India. Mr. CANNING had been returned for Liverpool after a trifling opposition; but we cannot discover that he had taken his Seat in Parliament. It appears indeed to have been arranged that he shall not resume his Parliamentary Career, until next Session.
